SUMMARY

Computer Science graduate (AI & ML) experienced in building end-to-end AI applications. Skilled in Generative AI and full-stack development, with practical experience from an internship at Berger Paints and a portfolio of impactful projects. Strong in core CS fundamentals — data structures, algorithms, operating systems, and databases.

EDUCATION

Vellore Institute of Technology, Chennai

Aug 2021 – Aug 2025

Bachelor of Technology in Computer Science (Specialization in AI & ML)

CGPA: 7.03

- **Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management, Computer Networks, AI/ML.

TECHNICAL SKILLS

Languages: Python, C++, Java

Web & Frameworks: React.js, FastAPI, Node.js, REST API

Databases: MySQL, MongoDB, ChromaDB

AI/ML Tools & Libraries: TensorFlow.js, OpenCV, LLaMA, Gemini API, RAG Pipelines

Cloud & Tools: Google Cloud, Git/GitHub, VS Code

Core CS: OOPs, Operating Systems, Data Structures & Algorithms

Certifications: Tata Cybersecurity Security Analyst Job Simulation – Forage (Aug 2025)

PROFESSIONAL EXPERIENCE

Berger Paints

Aug 2023 – Dec 2023

Software Development Intern

Jammu, India

- Engineered 6+ user-facing features and 8+ reusable React.js components for internal stakeholder dashboards, improving page load performance by 15% and boosting platform usability across teams.
- Partnered with the data science team to embed AI/ML model insights into a live analytics dashboard, visualizing 10,000+ records and cutting reporting time by 25%.
- Delivered end-to-end features across 4 Agile sprints, covering API integration, UI development, testing, and deployment.

PROJECTS

Generative AI Legal Document Demystifier | *React.js, FastAPI, Google Cloud, Gemini API* Aug 2025 – Sep 2025

- Built a full-stack AI platform that extracts legal clauses via OCR & Google Document AI with 95% accuracy, and renders interactive contract timelines using Mermaid.js & D3.js.
- Deployed a RAG pipeline on the Indian Kanoon corpus with an AI safety filter that blocks advisory outputs, ensuring only factual legal summaries are served — reducing document review time by 30%.
- Implemented a multi-modal output engine delivering plain-English summaries, visual diagrams, and Google Cloud TTS audio explanations from a single document upload.

AI-Powered Mental Health Chatbot | *LLaMA 3, ChromaDB, OpenCV, FastAPI*

Dec 2024 – Apr 2025

- Built a context-aware chatbot using LLaMA 3 and ChromaDB for evidence-based, memory-persistent mental health conversations.
- Trained a CNN model for real-time facial expression recognition, achieving 90% accuracy in emotion detection across 7 emotional categories.
- Fused NLP and computer vision pipelines — text sentiment and live facial cues are processed jointly to generate empathetic, personalized responses.

ACTIVITIES

Wakhra Punjab Club, VIT Chennai

Aug 2022 – Aug 2024

Marketing Head

- Managed a team of 45 members and led multiple promotional and cultural events across two academic years.
- Increased student engagement by 10% through targeted event promotion, social media campaigns, and cross-team leadership.
